

Job description

Job Role- Clinic Manager

Location-Pan India

About the company:

Research Ayu is a next-generation healthcare startup revolutionizing medicine by curing diseases once thought incurable and making these breakthroughs accessible to people across the globe.

With a growing team of 1,000+ employees and an Annual Recurring Revenue (ARR) of ₹180 crore, we are setting new benchmarks in regenerative medicine. Our flagship innovations include IEC–DHR-approved knee cartilage and meniscus regeneration treatments and advanced clinical trials to reverse diabetes by correcting metabolic dysfunctions.

Our vision is bold yet simple — to restore health, dignity, and hope for patients worldwide through science-backed Ayurvedic solutions.

Role & Responsibilities :

- One of your key responsibilities is to welcome patients and focus on customer conversion and retention. Here are some strategies and actions you can take to achieve these goals:
- Understand Your Customers: Develop a deep understanding of your target audience and their needs. Conduct market research, collect customer feedback, and analyze data to gain insights into their preferences, pain points, and buying behavior.
- Create a Positive Customer Experience: Ensure that every interaction with your business is positive and memorable. Train your staff to provide excellent customer service, be responsive to inquiries and concerns, and go the extra mile to exceed customer expectations.
- Offer Personalized Solutions: Tailor your products or services to meet the specific needs of your customers. Offer customization options, personalized recommendations, or exclusive deals to make them feel valued and understood.
- Build Strong Relationships: Cultivate strong relationships with your customers

by maintaining regular communication. Use email marketing, social media, and other channels to share relevant information, updates, and special offers. Consider implementing a customer relationship management (CRM) system to track interactions and stay organized.

- Provide Ongoing Support: Offer after-sales support to ensure customer satisfaction and address any issues that may arise. Implement a customer support system that allows customers to reach out easily, whether through phone, email, or live chat.
- Develop and execute sales strategies to achieve monthly and annual revenue targets.

Administrative Duties

- Oversee the maintenance of accurate sales records and client databases.
- Coordinate with medical staff to align sales efforts with clinic capabilities and goals.
- Ensure compliance with clinic policies and ethical sales practices.
- Identify opportunities for up-selling and cross-selling services, including skincare treatments, cosmetic procedures, and retail products.
- Monitor sales performance metrics and generate regular performance reports.
